PRACTICAL ALLERGY MANAGEMENT

Become proficient in the diagnosis, treatment and management of simple allergic disorders

Cat 2 (4 points)

The Royal Children's Hospital in partnership with Divisions of General Practice is offering you the opportunity to gain 4 Cat 2 points (with an option to continue to complete a full ALM if you wish). The aim of this program is to provide education that will help with the diagnosis, management and prevention of allergic disease in children.

Wednesday, May 20th 2009

6.30pm-9pm

Royal Children's Hospital

Light refreshments provided

Learning objectives

1. Learn about allergic disease, its triggers, management and prevention.
2. Become proficient in the diagnosis, treatment and management of simple allergic disorders.
3. Become proficient in the use of the RCH pre-referral guidelines and know when to refer patients for more complex allergy conditions.
4. To learn about what management should be undertaken before referring to the RCH.
