

# Please Note: Change of Venue

Practice nurses, general practitioners, practice managers and reception staff

*You are invited to attend a workshop on:*

## Pandemic Planning: Swine Influenza (H1N1)

Presented by Lynne Walker and Judy Evans from *walkerevans* consulting

The current emerging Swine Influenza (H1N1) pandemic will challenge the Australian health sector capacity and resources. Being pandemic prepared requires an understanding of the risks and how to mitigate them by increased vigilance in infection control management; early identification of cases; social distancing; cough etiquette; hand hygiene and the use of personal protection equipment (PPE).

### At the completion of this workshop you will be able to

- \* Identify the WHO and Australian pandemic phases and government actions
- \* Understand the current and emerging trends of influenza infection
- \* The role of triage in early detection and management
- \* Identify and utilize social distancing, cough etiquette, hand hygiene and PPE in limiting infection spread
- \* Demonstration of correct use of PPE (donning and doffing)
- \* Identify the role of seasonal influenza and pneumococcal immunisation

**Date:** Wednesday 10<sup>th</sup> June 2009

**Time:** 7 – 9pm. Dinner and registration from 6.30pm

**Venue:** The Treacy Conference Centre \***Change of Venue**

**Location and address:** 126 The Avenue, Parkville, 3052

**Contact for further information:** Wendy on 9347 1188

- Evidence Based Practice

**Lynne Walker**

Lynne has worked in general practice nursing for the last ten years. During this time she has gained extensive experience working in a multidisciplinary environment, has been involved in setting up clinics, constantly promoting and expanding the role of the practice nurse.

Lynne has an interest in women's health, diabetes education and chronic disease management.

**Judy Evans**

Judy has worked for fourteen years as both a practice nurse and campus nurse.

Her campus nursing role has provided expertise in health promotion and adolescent health. Risk management, research and evidence based practice are included in Judy's interests and she is well known for her whole of practice approach to triage.
