

Study in Athletes Foot

An investigational drug for the treatment of the fungus that causes Athletes Foot is being researched in a number of clinics in Australia.

We are looking for volunteers who:

- ✓ Have 'moccasin' type athlete's foot (infection on the soles/heels/borders of the foot)
- ✓ Are aged 18 to 65 years of age
- ✓ Have no major health problems

If you are interested in obtaining more information please contact:

1800 334 274

Participation in the study is free.
